## Geisinger CEO named to 100 Most Influential People in Healthcare list

Jaewon Ryu, MD, JD, Geisinger president and CEO, has been recognized by Modern Healthcare as one of the 100 Most Influential People in Healthcare for 2022.

This recognition acknowledges and honors those who are deemed by their peers and the senior editors of Modern Healthcare to be the most influential individuals in the industry, in terms of leadership and impact. Dr. Ryu was included among some of the most influential leaders in the industry.

While Dr. Ryu's name is on this list, he is the first to point out that it is a testament to the work each of you do daily. It's an honor we can all be proud of.

"It's an honor to be included among such an impressive group of people. This award acknowledges the incredible work our Geisinger team members do every day. It is through their dedication and commitment that we are able to make better health easier for the communities we serve, while also demonstrating value-based models of care that can serve as inspiration for others across the country," Dr. Ryu said.
